### About the author:

I played Everquest for 5 years or so on the Fennin Ro server. I played Runengetum (a ranger) and more recently Runenblastem (an enchanter). During that time I raided with Elitists and with TNF (Truly Naughty Friends). With TNF I had a more active role helping with and occasionally leading the raids. This is one of a number of guides that I wrote or was work in progress when I finished playing the game. Given that both raid teams folded at or around the time that I stopped playing in November 2008 and that over a year has passed, I feel it time to put the information that I collected into the public domain.
